(Code of Iowa, Sec. 364.22[3])

3.02 ENVIRONMENTAL VIOLATION. A municipal infraction that is a violation of Chapter 455B of the *Code of Iowa* or of a standard established by the City in consultation with the Department of Natural Resources, or both, may be classified as an environmental violation. However, the provisions of this section shall not be applicable until the City has offered to participate in informal negotiations regarding the violation or to the following specific violations:

(Code of Iowa, Sec. 364.22 [1])

1. A violation arising from noncompliance with a pretreatment standard or requirement referred to in 40 C.F.R. § 403.8.

3.03 PENALTIES. A municipal infraction is punishable by the following civil penalties:

(Code of Iowa, Sec. 364.22 [1])

1. Standard Civil Penalties.
 - A. First offense – not to exceed \$750.00
 - B. Each repeat offense – not to exceed \$1,000.00

Each day that a violation occurs or is permitted to exist constitutes a repeat offense.

2. Special Civil Penalties.
 - A. A municipal infraction arising from noncompliance with a pretreatment standard or requirement, referred to in 40 C.F.R. § 403.8, by an industrial user is punishable by a penalty of not more than \$1,000.00 for each day a violation exists or continues.

B. A municipal infraction classified as an environmental violation is punishable by a penalty of not more than \$1,000.00 for each occurrence. However, an environmental violation is not subject to such penalty if all of the following conditions are satisfied:

- (1) The violation results solely from conducting an initial startup, cleaning, repairing, performing scheduled maintenance, testing, or conducting a shutdown of either equipment causing the violation or the equipment designed to reduce or eliminate the violation.
- (2) The City is notified of the violation within twenty-four (24) hours from the time that the violation begins.

A copy of the citation shall be retained by the issuing officer, and the original citation shall be sent to the Clerk of the District Court. 3.05 ALTERNATIVE RELIEF. Seeking a civil penalty as authorized in this chapter does not preclude the City from seeking alternative relief from the court in the same action. Such alternative relief may include, but is not limited to, an order for abatement or injunctive relief.

(Code of Iowa, Sec. 364.22 [8])

3.06 CRIMINAL PENALTIES. This chapter does not preclude a peace officer from issuing a criminal citation for a violation of this Code of Ordinances or regulation if criminal penalties are also provided for the violation. CHAPTER 46

MINORS

46.01 Curfew

46.02 Cigarettes and Tobacco

46.03 Contributing to Delinquency

46.01 CURFEW. The Council has determined that a curfew for minors is necessary to promote the public health, safety, morals and general welfare of the City and specifically to reinforce the primary authority and responsibility of adults responsible for minors; to protect the public from the illegal acts of minors committed after the curfew hour; and to protect minors from improper influences and criminal activity that prevail in public places after the curfew hour.

1. Definitions. For use in this section, the following terms are defined:
 - A. “Emergency errand” means, but is not limited to, an errand relating to a fire, a natural disaster, an automobile accident or any other situation requiring immediate action to prevent serious illness, bodily injury, or loss of life.
 - B. “Knowingly” means knowledge that a responsible adult should reasonably be expected to have concerning the whereabouts of a minor in that responsible adult’s custody. It is intended to continue to hold the neglectful or careless adult responsible for a minor to a reasonable standard of adult responsibility through an objective test. It is therefore no defense that an adult responsible for a minor was completely indifferent to the activities or conduct or whereabouts of the minor.
 - C. “Minor” means any unemancipated person under the age of eighteen (18) years.
 - D. “Nonsecured custody” means custody in an unlocked multipurpose area, such as a lobby, office or interrogation room that is not designed, set aside, or used as a secure detention area, and the person arrested is not physically secured during the period of custody in the area; the person is physically accompanied by a law enforcement officer or a person employed by the facility where the person arrested is being held; and the use of the area is limited to providing nonsecured custody only while awaiting transfer to an appropriate juvenile facility or to court, for contacting of and release to the person’s parents or other responsible adult or for other administrative purposes; but not for longer than six (6) hours without the oral or written order of a judge or magistrate authorizing the detention. A judge shall not extend the period of time in excess of six hours beyond the initial six-hour period.
 - E. “Public place” includes stores, parking lots, parks, playgrounds, streets, alleys, and sidewalks dedicated to public use and also includes such parts of buildings and other premises, whether publicly or privately owned, that are used by the general public or to which the general public is invited

commercially for a fee or otherwise; or in or on which the general public is permitted without specific invitation; or to which the general public has access. For purposes of this section, a vehicle or other conveyance is considered to be a public place when in the areas defined above.

F. “Responsible adult” means a parent, guardian or other adult specifically authorized by law or authorized by a parent or guardian to have custody or control of a minor.

G. “Unemancipated” means unmarried and/or still under the custody or control of a responsible adult.

2. Curfew Established. It is unlawful for any minor to be or remain upon any of the alleys, streets or public places or to be in places of business and amusement in the City between the hours of 11:00 p.m. and 4:00 a.m. of the following day on days commencing on Sunday, Monday, Tuesday, Wednesday and Thursday and between the hours of 12:00 midnight and 4:00 a.m. on Friday and Saturday.

3. Exceptions. The following are exceptions to the curfew:

A. The minor is accompanied by a responsible adult.

B. The minor is on the sidewalk or property where the minor resides or on either side of the place where the minor resides and the adult responsible for the minor has given permission for the minor to be there.

C. The minor is present at or is traveling between home and one of the following:

(1) Minor’s place of employment in a business, trade or occupation in which the minor is permitted by law to be engaged or, if traveling, within one hour after the end or before the beginning of work;

(2) Minor’s place of religious activity or, if traveling, within one hour after the end or before the beginning of the religious activity;

(3) Governmental or political activity or, if traveling, within one hour after the end or before the beginning of the activity;

(4) School activity or, if traveling, within one hour after the end or before the beginning of the activity;

(5) Assembly such as a march, protest, demonstration, sit-in or meeting of an association for the advancement of economic, political, religious or cultural matters, or for any other activity protected by the First Amendment of the U.S. Constitution guarantees of free exercise of religion, freedom of speech, freedom of assembly or, if traveling, within one hour after the end or before the beginning of the activity.

D. The minor is on an emergency errand for a responsible adult;

E. The minor is engaged in interstate travel through the City beginning, ending or passing through the City when such travel is by direct route.

4. Responsibility of Adults. It is unlawful for any responsible adult knowingly to permit or to allow a minor to be in any public place in the City within the time

periods prohibited by this section unless the minor's presence falls within one of the above exceptions.

5. Enforcement Procedures.

A. Determination of Age. In determining the age of the juvenile and in the absence of convincing evidence such as a birth certificate or driver's license, a law enforcement officer on the street shall, in the first instance, use his or her best judgment in determining age.

B. Grounds for Arrest; Conditions of Custody. Grounds for arrest are that the person refuses to sign the citation without qualification; persists in violating the ordinance; refuses to provide proper identification or to identify himself or herself; or constitutes an immediate threat to the person's own safety or to the safety of the public. A law enforcement officer who arrests a minor for a curfew violation may keep the minor in custody either in a shelter care facility or in any nonsecured setting. The officer shall not place bodily restraints, such as handcuffs, on the minor unless the minor physically resists or threatens physical violence when being taken into custody. A minor shall not be placed in detention following a curfew violation.

C. Notification of Responsible Adult. After a minor is taken into custody, the law enforcement officer shall notify the adult responsible for the minor as soon as possible. The minor shall be released to the adult responsible for the minor upon the promise of such person to produce the child in court at such time as the court may direct.

D. Minor Without Adult Supervision. If a law enforcement officer determines that a minor does not have adult supervision because the law enforcement officer cannot locate the minor's parent, guardian or other person legally responsible for the care of the minor, within a reasonable time, the law enforcement officer shall attempt to place the minor with an adult relative of the minor, an adult person who cares for the child or another adult person who is known to the child.

6. Penalties.

A. Responsible Adult's First Violation. In the case of a first violation by a minor, the law enforcement officer shall, by certified mail, send to the adult responsible for the minor, written notice of the violation with a warning that any subsequent violation will result in full enforcement of the curfew ordinance against both the responsible adult and minor, with applicable penalties.

B. Responsible Adult's Second Violation. Any responsible adult as defined in this section who, following receipt of a warning, knowingly allows the minor to violate any of the provisions of this section is guilty of a municipal infraction or a simple misdemeanor. Upon conviction, the person shall be punished by a fine or performance of community service as ordered by the court.

C. Minor's Violation. For any violations of the provisions of this section by a minor, the minor shall be guilty of a municipal infraction or a

simple misdemeanor. Upon conviction, the person shall be punished by a fine or performance of community service as ordered by the court.

46.02 CIGARETTES AND TOBACCO. It is unlawful for any person under eighteen (18) years of age to smoke, use, possess, purchase, or attempt to purchase any tobacco, tobacco products, or cigarettes. Possession of cigarettes or tobacco products by a person under eighteen years of age shall not constitute a violation of this section if said person possesses the cigarettes or tobacco products as part of the person's employment and said person is employed by a person who holds a valid permit under Chapter 453A of the *Code of Iowa* and lawfully offers for sale or sells cigarettes or tobacco products.

(Code of Iowa, Sec. 453A.2)

Such order shall be contained in a notice to remove the dangerous or vicious animal, which notice shall be given in writing to the owner of such animal, and shall be served personally or by certified mail. Such order and notice to remove the dangerous or vicious animal shall not be required where such dangerous or vicious animal has previously caused serious physical harm or death to any person, in which case the Mayor or other authorized officer shall cause the animal to be immediately seized and impounded or killed if seizure and impoundment are not possible without risk of serious physical harm or death to any person.

The decision and order shall immediately be served upon the owner in the same manner as the notice of removal. If the original order of the Mayor or other authorized officer is not appealed and is not complied with within three (3) days of its issuance, the Mayor or other authorized officer is authorized to seize and impound such dangerous or vicious animal. An animal so seized shall be impounded for a period of seven (7) days. 80.01 DEFINITIONS. For use in this chapter, the following terms are defined:

(Code of Iowa, Sec. 321.89[1] & Sec. 321.90)

1. “Abandoned vehicle” means any of the following:
 - A. A vehicle that has been left unattended on public property for more than twenty-four (24) hours and lacks current registration plates or two or more wheels or other parts which renders the vehicle totally inoperable.

 - E. Any vehicle parked on the highway determined by a police authority to create a hazard to other vehicle traffic.
 - F. A vehicle that has been impounded pursuant to Section 321J.4B of the *Code of Iowa* by order of the court and whose owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order.
2. “Demolisher” means a person licensed under Chapter 321H of the *Code of Iowa* whose business it is to convert a vehicle to junk, processed scrap or scrap metal, or otherwise to wreck, or dismantle vehicles.
3. “Garage keeper” means any operator of a parking place or establishment, motor vehicle storage facility, or establishment for the servicing, repair, or maintenance of motor vehicles.
4. “Police authority” means the Iowa state patrol or any law enforcement agency of a county or city.

80.02 AUTHORITY TO TAKE POSSESSION OF ABANDONED VEHICLES. A police authority, upon the authority’s own initiative or upon the request of any other authority having the duties of control of highways or traffic, shall take into custody an abandoned

vehicle on public property and may take into custody any abandoned vehicle on private property. The police authority may employ its own personnel, equipment, and facilities or hire a private entity, equipment, and facilities for the purpose of removing, preserving, storing, or disposing of abandoned vehicles. A property owner or other person in control of private property may employ a private entity that is a garage keeper to dispose of an abandoned vehicle, and the private entity may take into custody the abandoned vehicle without a police authority's initiative. If a police authority employs a private entity to dispose of abandoned vehicles, the police authority shall provide the private entity with the names and addresses of the registered owners, all lienholders of record, and any other known claimant to the vehicle or the personal property found in the vehicle.

(Code of Iowa, Sec. 321.89[2])

80.03 NOTICE BY MAIL. The police authority or private entity that takes into custody an abandoned vehicle shall notify, within twenty (20) days, by certified mail, the last known registered owner of the vehicle, all lienholders of record, and any other known claimant to the vehicle or to personal property found in the vehicle, addressed to the parties' last known addresses of record, that the abandoned vehicle has been taken into custody. Notice shall be deemed given when mailed. The notice shall describe the year, make, model and vehicle identification number of the vehicle, describe the personal property found in the vehicle, set forth the location of the facility where the vehicle is being held, and inform the persons receiving the notice of their right to reclaim the vehicle and personal property within ten (10) days after the effective date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of the notice. The notice shall also state that the failure of the owner, lienholders or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders and claimants of all right, title, claim and interest in the vehicle or personal property and that failure to reclaim the vehicle or personal property is deemed consent to the sale of the vehicle at a public auction or disposal of the vehicle to a demolisher and to disposal of the personal property by sale or destruction. If the abandoned vehicle was taken into custody by a private entity without a police authority's initiative, the notice shall state that the private entity may claim a garage keeper's lien as described in Section 321.90 of the *Code of Iowa*, and may proceed to sell or dispose of the vehicle. If the abandoned vehicle was taken into custody by a police authority or by a private entity hired by a police authority, the notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters. If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the ten-day reclaiming period, the owner, lienholders or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders or claimants after the expiration of the ten-day reclaiming period.

(Code of Iowa, Sec. 321.89[3a])

80.04 NOTIFICATION IN NEWSPAPER. If it is impossible to determine with reasonable certainty the identity and addresses of the last registered owner and all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under Section 80.03. The published notice may contain multiple listings of abandoned vehicles and

personal property but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in Section 80.03.

(Code of Iowa, Sec. 321.89[3b])

80.05 FEES FOR IMPOUNDMENT. The owner, lienholder, or claimant shall pay three dollars (\$3.00) if claimed within five (5) days of impounding, plus one dollar (\$1.00) for each additional day within the reclaiming period plus towing charges, if stored by the City, or towing and storage fees, if stored in a public garage, whereupon said vehicle shall be released. The amount of towing charges, and the rate of storage charges by privately owned garages, shall be established by such facility.

(Code of Iowa, Sec. 321.89[3a])

80.06 DISPOSAL OF ABANDONED VEHICLES. This chapter shall apply to all replacements of existing water service pipes as well as to new ones. The Superintendent shall make such rules, not in conflict with the provisions of this chapter, as may be needed for the detailed operation of the water system, subject to the approval of the Council. In the event of an emergency the Superintendent may make temporary rules for the protection of the system until due consideration by the Council may be had.

(Code of Iowa, Sec. 372.13[4])

90.03 MANDATORY CONNECTIONS. All residences and business establishments within the City limits intended or used for human habitation, occupancy or use shall be connected to the public water system, if it is reasonably available and if the building is not furnished with pure and wholesome water from some other source.

90.04 ABANDONED CONNECTIONS. When an existing water service is abandoned or a service is renewed with a new tap in the main, all abandoned connections with the mains shall be turned off at the corporation stop and made absolutely watertight.

90.05 PERMIT. Before any person makes a connection with the public water system, a written permit must be obtained from the City. The application for the permit shall include a legal description of the property, the name of the property owner, the name and address of the person who will do the work, and the general uses of the water. If the proposed work meets all the requirements of this chapter and if all fees required under this chapter have been paid, the permit shall be issued. Work under any permit must be completed within sixty (60) days after the permit is issued, except that when such time period is inequitable or unfair due to conditions beyond the control of person making the application, an extension of time within which to complete the work may be granted. The permit may be revoked at any time for any violation of these chapters.

90.06 FEE FOR PERMIT AND CONNECTION CHARGE. Before any permit is issued the person who makes the application shall pay ten dollars (\$10.00) to the Clerk to cover the cost of issuing the permit and supervising, regulating, and inspection of the work. In addition there shall be a connection charge in the amount of sixty-five dollars (\$65.00) paid before issuance of a permit to reimburse the City for costs borne by the City in making water service available to the property served.

(Code of Iowa, Sec. 384.84)

90.07 COMPLIANCE WITH PLUMBING CODE. The installation of any water service pipe and any connection with the water system shall comply with all pertinent and applicable provisions, whether regulatory, procedural or enforcement provisions, of the *State Plumbing Code*.

90.08 PLUMBER REQUIRED. All installations of water service pipes and connections to the water system shall be made by a State-licensed plumber.

90.09 EXCAVATIONS. All trench work, excavation and backfilling required in making a connection shall be performed in accordance with applicable excavation provisions as provided for installation of building sewers and/or the provisions of Chapter 135.

90.10 TAPPING MAINS. All taps into water mains shall be made by or under the direct supervision of the Superintendent and in accord with the following:

1. Independent Services. No more than one house, building or premises shall be supplied from one tap unless special written permission is obtained from the Superintendent and unless provision is made so that each house, building or premise may be shut off independently of the other.
2. Sizes and Location of Taps. All mains six (6) inches or less in diameter shall receive no larger than a three-fourths (3/4) inch tap. All mains of over six (6) inches in diameter shall receive no larger than a one inch tap. Where a larger connection than a one inch tap is desired, two (2) or more small taps or saddles shall be used, as the Superintendent shall order. All taps in the mains shall be made at or near the top of the pipe, at least eighteen (18) inches apart. No main shall be tapped nearer than two (2) feet of the joint in the main.

3. Corporation Stop. A brass corporation stop, of the pattern and weight approved by the Superintendent, shall be inserted in every tap in the main. The corporation stop in the main shall be of the same size as the service pipe.

4. Location Record. An accurate and dimensional sketch showing the exact location of the tap shall be filed with the Superintendent in such form as the Superintendent shall require.

(Code of Iowa, Sec. 372.13[4])

90.11 INSTALLATION OF WATER SERVICE PIPE. Water service pipes from the main to the meter setting shall be Type K copper. The use of any other pipe material for the service line shall first be approved by the Superintendent. Pipe must be laid sufficiently waving, and to such depth, as to prevent rupture from settlement or freezing.

90.12 RESPONSIBILITY FOR WATER SERVICE PIPE. All costs and expenses incident to the installation, connection and maintenance of the water service pipe from the curb valve to the building served shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation or maintenance of said water service pipe.

90.13 FAILURE TO MAINTAIN. When any portion of the water service pipe which is the responsibility of the property owner becomes defective or creates a nuisance and the owner fails to correct such nuisance the City may do so and assess the costs thereof to the property.

(Code of Iowa, Sec. 364.12[3a & h])

90.15 INTERIOR VALVE. There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.16 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.17 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for twenty-four (24) hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the Superintendent shall have the right to finish or correct the work, and the Council shall assess the costs to the property owner or the plumber. If the plumber is assessed, the plumber must pay the costs before receiving

another permit. If the property owner is assessed, such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

90.18 SHUTTING OFF WATER SUPPLY. After following the procedures set out in Section 92.05, the Superintendent may shut off the supply of water to any customer because of any substantial violation of this chapter, or valid regulation under Section 90.02 that is not being contested in good faith. The supply shall not be turned on again until all violations have been corrected and the Superintendent has ordered the water to be turned on.

90.19 OPERATION OF CURB VALVE AND HYDRANTS. It is unlawful for any person except the Superintendent to turn water on at the curb valve, and no person, unless specifically authorized by the City, shall open or attempt to draw water from any fire hydrant for any purpose whatsoever.

Pipe laying and backfill shall be performed in accordance with A.S.T.M. Specification C-12, except that no backfill shall be placed until the work has been inspected. The excavations shall be made in accordance with the provisions of Chapter 135 where applicable.

96.05 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. Old Building Sewers. Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.
2. Separate Building Sewers. A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to

the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.

3. Installation. The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code*, applicable rules and regulations of the City, or the procedures set forth in A.S.T.M. Specification C-12. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.

4. Water Lines. When possible, building sewers should be laid at least ten (10) feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least twelve (12) inches above the top of the building sewer.

5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four (4) inches.

6. Alignment and Grade. All building sewers shall be laid to a straight line and at a uniform grade of not less than the following:

A. Four (4) inch lines: one-fourth ($\frac{1}{4}$) inch per foot.

B. Six (6) inch lines: one-eighth ($\frac{1}{8}$) inch per foot.

C. Minimum velocity: 2.50 feet per second with the sewer half full.

D. Deviations: any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with properly curved pipe and fittings.

7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.

8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.

9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:

A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).

B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.

C. Ductile iron water pipe – A.W.W.A. C-151.

D. P.V.C. – SDR26 - A.S.T.M. D-3034

10. Bearing Walls. No building sewer shall be laid parallel to, or within three (3) feet of any bearing wall, which might thereby be weakened.

11. Jointing. Fittings, type of joint, and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.

12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six (6) inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by filling stations, automobile wash racks, garages, and other facilities, when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a "Y" saddle shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued and attached with stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid under ground shall be

covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.10 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within thirty (30) days after date of official notice from the Council of such violation. If not made within such time the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

97.04 Restricted Discharges

97.05 Restricted Discharges - Powers

97.06 Special Facilities

97.07 Control Manholes

97.08 Testing of Wastes

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers, or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshing, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.
5. Excessive B.O.D., Solids or Flow. Any waters or wastes having (1) a five (5) day biochemical oxygen demand greater than three hundred (300) parts per million by

weight, or (2) containing more than three hundred fifty (350) parts per million by weight of suspended solids, or (3) having an average daily flow greater than two (2) percent of the average sewage flow of the City, shall be subject to the review of the Superintendent. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to (1) reduce the biochemical oxygen demand to three hundred (300) parts per million by weight, or (2) reduce the suspended solids to three hundred fifty (350) parts per million by weight, or (3) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than one hundred fifty (150) degrees F (65 degrees C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) milligrams per liter or six hundred (600) milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150) degrees F (0 and 65 degrees C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (1/2) inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite

sewage, to meet the requirements of state, federal, or other public agencies or jurisdiction for such discharge to the receiving waters.

8. **Radioactive Wastes.** Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable state or federal regulations.
9. **Excess Alkalinity.** Any waters or wastes having a pH in excess of 9.5.
10. **Unusual Wastes.** Materials which exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - B. Excessive discoloration (such as, but not limited to dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
11. **Noxious or Malodorous Gases.** Any noxious or malodorous gas or other substance which either singly or by interaction with other wastes is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. **Damaging Substances.** Any waters, wastes, materials or substances which react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. **Untreatable Wastes.** Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES - POWERS. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. **Rejection.** Reject the wastes by requiring disconnection from the public sewage system;
2. **Pretreatment.** Require pretreatment to an acceptable condition for discharge to the public sewers;
3. **Controls Imposed.** Require control over the quantities and rates of discharge; and/or

4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of "Standard Methods of the Examination of Water and Wastewater," published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from twenty-four (24) hour composites of all outfalls whereas pH's are determined from periodic grab samples).

105.10 Hazardous Wastes	

105.01 PURPOSE. The purpose of the chapters in this Code of Ordinances pertaining to Solid Waste Control is to ensure that solid waste generated within the City will be collected, transported and deposited in an environmentally safe manner and to ensure that the mandated reduction goals set out by State Code will be met.

105.02 FINDINGS. The City makes the following specific findings:

1. The collection of solid waste from commercial, industrial, residential and other establishments and premises within the City is a matter of serious concern to the health, welfare and safety of the citizens of the City; and
2. Some solid waste presently being generated within the City is being transported to its ultimate disposal site in uncovered vehicles which allows the garbage to fall from the vehicle onto the road during transportation, thereby littering the road and the property adjoining the road, creating both a health and safety hazard; and
3. The mishandling of solid waste from residential, commercial, industrial, and other establishments and premises in the collection and disposal process can result in conditions which adversely affect the health, safety and welfare of the citizens of the City and may have a serious detrimental impact on the quality of the environment; and
4. The collection of solid waste within the City is an essential public service; and
5. To better assure compliance with the requirements of Iowa Code Chapters 455B.301a; 455B.302; 455B.307; 455.307a, and 455D.4, it is necessary for the City to assume the overall responsibility for the collection of all waste generated within its corporate boundaries and to limit collection of said waste to the City or to such persons or companies who demonstrate that they are capable and willing to collect said solid waste in a manner deemed by the City to be responsible, sound and consistent with the sanitation and environmental practices and policies established by the State of Iowa and by the City; and
6. The City has determined that it can best achieve the goals and objectives of the City as set out in the findings above by one of the following methods:

- A. City Direct Service. The Council may choose to provide service directly with City equipment and City employees.
 - B. Selected Hauler Service. The City may designate a zone as a selected hauler zone. Under this option, the City may receive proposals, on terms provided herein, for one or a limited number of selected haulers.
 - C. Multiple Contract Hauler Service. The City may determine to offer standard contracts to haulers, for an initial contract period determined by the City, under which any qualified hauler may, for the contract period, enter into a nonexclusive uniform contract with the City to provide some of the City's service within the zone. The City may choose to offer Contract Hauler service for residential, commercial or industrial service, or any combination of the three. The City may enter into contracts with multiple haulers for the same type of service within the same zone.
 - D. A Combination of City Service and Private Hauler Service. The City may determine to provide services directly with City equipment and City employees for a portion of the waste stream and offer standard contracts to haulers as outlined in paragraphs B and C above.
- 7. The City has a duty to encourage recycling and the proper management of household hazardous waste.
 - 8. The City has a desire to ensure that commercial and industrial hazardous wastes are also collected and disposed of according to Federal and State law.

105.03 DEFINITIONS. For the purposes of the chapters in this Code of Ordinances pertaining to solid waste control, the following terms, phrases, words and their derivations have the meanings given herein.

10. "Hardin County Solid Waste Disposal Commission" means the commission created by the cities within Hardin County along with Hardin County pursuant to Iowa Code Chapter 28E, or successor statutes for the purpose of cooperatively coordinating and managing solid waste within the Hardin County area.

Categories of hazardous waste materials include, but are not limited to: explosives, flammables, oxidizers, poisons, irritants, and corrosives.

12. "Household hazardous waste" means waste generated from household activity that exhibits the characteristics of or that is listed as hazardous waste under State or Federal rules, but does not include waste from commercial activities that is generated, stored or present in a household.

13. "Litter" means any garbage, rubbish, trash, refuse, waste materials or debris.

14. "Open burning" means any burning of combustible materials where the products of combustion are emitted into the open air without passing through a chimney or stack.

18. "Recycling" means the process of collecting and preparing recyclable materials and reusing the materials in their original form or using them in manufacturing processes that do not cause the destruction of recyclable materials in a manner that precludes further use. It includes yard waste composting, and recycling that occurs through mechanical or hand separation of materials.

105.06 OPEN BURNING RESTRICTED. No person shall allow, cause or permit open burning of combustible materials where the products of combustion are emitted into the open

air without passing through a chimney or stack, except that open burning is permitted in the following circumstances:

1. Disaster Rubbish. The open burning of rubbish, including landscape waste, for the duration of the community disaster period in cases where an officially declared emergency condition exists, provided that the burning of any structures or demolished structures is conducted in accordance with 40 CFR Section 61.145.

(IAC, 567-23.2[3a])

2. Trees and Tree Trimmings. The open burning of trees and tree trimmings at a City-operated burning site, provided such burning is conducted in compliance with the rules established by the State Department of Natural Resources.

However, the burning of landscape waste produced in clearing, grubbing and construction operations shall be limited to areas located at least one-fourth ($\frac{1}{4}$) mile from any building inhabited by other than the landowner or tenant conducting the open burning. Rubber tires shall not be used to ignite landscape waste.

(IAC, 567-23.2[3d])

105.07 SEPARATION OF YARD WASTE REQUIRED. All yard waste shall be separated by the owner or occupant from all other solid waste accumulated on the premises and shall be composted or burned on the premises. As used in this section, "yard waste" means any debris such as grass clippings, leaves, garden waste, brush and trees. Yard waste does not include tree stumps.

105.09 OPEN DUMPING PROHIBITED. No person shall dump or deposit or permit the dumping or depositing of any solid waste on the surface of the ground or into a body or stream of water at any place other than a sanitary disposal project approved by the Director of the State Department of Natural Resources, unless a special permit to dump or deposit solid waste on land owned or leased by such person has been obtained from the Director of the State Department of Natural Resources. 1. **Container Specification.** Waste storage containers shall comply with the following specifications:
 - A. **Residential.** Residential waste containers shall be of not less than twenty (20) gallons nor more than thirty-two (32) gallons in nominal capacity; shall be leak proof, water proof and fitted with a fly tight lid which shall be kept in place except when depositing or removing the contents thereof. They shall have handles, bails or other suitable lifting devices or features and be of a type originally manufactured for the storage of residential wastes with tapered sides for easy emptying. They shall be of light weight and sturdy construction with the total weight of any individual containers and contents not exceeding forty (40) pounds. Disposable containers or other containers as approved by the City may also be used.
 - B. **Commercial.** Every person owning, managing, operating, leasing or renting any commercial premises where an excessive amount of refuse accumulates and where its storage in portable containers as required above is impractical, shall maintain metal bulk storage containers approved by the City.
2. **Location of Containers.** Residential solid waste containers shall be stored upon the residential premises. Commercial solid waste containers shall be stored upon private property, unless the owner has been granted written permission from the City to use public property for such purposes. The storage site shall be well-drained; fully accessible to collection equipment, public health personnel and fire inspection personnel.
3. **Nonconforming Containers.** Solid waste containers which are not adequate will be collected together with their contents and disposed of after due notice to the owner.

3. **Radioactive Material.** Dispose of radioactive material in sanitary disposal project. Luminous timepieces are exempt.

4. Unlawful Collection. Engage in the business of collecting, transporting, processing or disposing of solid waste within the City without a contract therefor with the City or a valid permit therefor.
5. Incinerators. Burn solid waste except in approved incinerators so maintained and operated as to prevent the emission of objectionable odors or particulate matter.

105.14 PUBLIC COLLECTION SYSTEM. The City hereby establishes a public collection and transportation system which shall be administered as provided by law and ordinance. The collection and transportation system established herein covers collection of covered solid waste from all residential, commercial, industrial and other properties within the City and its transport to the point of disposal.

1. Ordinance Applies to all Covered Solid Waste. All covered solid waste generated or accumulated in the City shall be collected and conveyed to point of disposal by the City through the public collection system, except as expressly exempted in this chapter. No person shall collect or convey any covered solid waste in the City, except as expressly exempted in or authorized by this chapter.
2. City to Supervise Collection. The City's public collection and transportation system will be managed by the City. The City has the authority to interpret the provisions of this chapter and implement reasonable standard policies which are consistent with the terms of this chapter.
3. Exception for Transport Through City. This chapter does not prohibit collectors or haulers of solid waste generated in, or accumulated within, other cities, counties, or states from transporting such solid waste for disposal through or to the City in an otherwise lawful manner. This exception does not relieve such collectors or haulers from complying with other laws governing such transport or disposal.
4. Temporary Exemption for Haulers Under Contract with the City. Haulers under contract with the City as of the date of adoption of the ordinance codified herein are exempt from this chapter during the original term of the contract. This exemption shall expire upon termination or expiration of the contract.

105.15 PRE-COLLECTION PRACTICES.

1. Waste Reduction. The City is committed to encouraging waste reduction wherever possible, and the City shall endeavor to administer this chapter in a way it protects the environment and the public, and provides the most practical and beneficial use of the materials and energy values of solid waste, implementing whenever possible goals set out in Iowa Code, Chapter 455B.301a to wit:
 - A. Volume reduction at the source.
 - B. Recycling and reuse.
 - C. Other approved techniques of solid waste management, including but not limited to combustion with energy recovery, combustion for waste disposal, and disposal at sanitary landfills.

In addition, the City shall utilize the capabilities of private enterprise as well as the services of the City to accomplish the desired objectives of an effective solid waste management program, in such a manner to best meet the goals for waste stream

reduction set out in Iowa Code, Chapter 455B.3, including encouraging recycling for residential and nonresidential waste generators.

2. **Prohibited Storage.** No person shall place any solid waste in any street, alley, road, highway or other public place, or upon any private property (whether owned by such person or not), within the City, except in proper containers for collection under this chapter, or under express approval granted by the City. No person shall throw or deposit any solid waste in any stream or other body of water.

3. **Unauthorized Accumulation or Deposit of Solid Waste.** The unauthorized accumulation, deposit or handling of solid waste not otherwise covered by the chapters in this Code of Ordinances pertaining to solid waste control is hereby prohibited. The City may, by written notification, require the owners or occupants of property to remove any unauthorized accumulation or deposit of solid waste in the City within a period not to exceed ten days. If the unauthorized accumulation or deposit of solid waste is not removed within the specified time, the City may provide for removal of the accumulation or deposit of solid waste at the owner's or occupant's expense. The City shall then cause the expense to be a lien on the property and collected as property taxes. This action shall not preclude the City from seeking civil or criminal penalties from persons responsible for unauthorized accumulations of deposits of solid waste.

A. **Proper Storage.** No persons shall store solid waste in such a manner that it may be carried or deposited by the elements upon any public or private premises. The owner, lessee and occupant of any premises, business establishment or industry shall be responsible for the satisfactory storage of all solid waste accumulated at said person's premises, business establishment or industry. No building, structure, area, or premises shall be constructed or maintained for human occupancy, use or assembly without adequate facilities for sanitary and safe storage and collection of all solid waste.

B. **Household Hazardous Waste and Problem Materials.** The City residents shall be encouraged to dispose of household hazardous waste and problem materials through a collection system specifically for household hazardous waste, or other service provided through the Hardin County Solid Waste Disposal Commission.

105.16 CITY-PROVIDED SERVICE. The City will establish solid waste collection zones for residential and commercial and industrial waste. The method of City collection applicable in any zone will be established by ordinance of the Council, as described in Section 105.17.

1. **Service to All Properties.** Every property shall receive, and the owner or occupant thereof shall pay a fee for, collection and disposal of solid waste and recyclables.

2. **Self-haulers.** Self-hauling of covered solid waste may be allowed, provided that the collection, transportation and disposal are carried out in accord with the law and applicable ordinances and in an environmentally suitable manner.

3. **Solid Waste Zones - Service Options.** As part of initial passage of the ordinance codified herein, the Council will establish solid waste zones for the City. The Council will adopt a service option for each zone. In determining the appropriate

option, the Council will consider the environmental, economic and geographic circumstances of each zone and will consider the views of residents and business. The Council may, after notice and hearing, from time to time adopt revisions in the service option for one or more zones.

4. Service Options. In each zone, the Council may adopt any of the following service options:
 - A. City Direct Service. The Council may choose to provide service directly with City equipment and City employees.
 - B. Selected Hauler Service. The City may designate a zone as a selected hauler zone. Under this option, the City may receive proposals, on terms provided herein, for one or a limited number of selected haulers.
 - C. Multiple Contract Hauler Service. The City may determine to offer standard contracts to haulers, for an initial contract period determined by the City, under which any qualified hauler may, for the contract period, enter into a nonexclusive uniform contract with the City to provide some of the City's service within the zone. The City may choose to offer contract hauler service for residential, commercial or industrial service, or any combination of the three. The City may enter into contracts with multiple haulers for the same type of service within the same zone.
 - D. A Combination of City Service and Private Hauler Service. The City may determine to provide services directly with City equipment and City employees for a portion of the waste stream and offer standard contracts to haulers as outlined in Sections B and C above.
5. Regional Cooperation. Upon approval of the Council, the City may enter into joint powers agreements pursuant to Iowa statute 28E, or successor statutes.

105.17 COLLECTION ZONES.

1. Solid Waste Zones Established. The following solid waste zones are hereby established.
 - A. Residential Zones. The residential zones set out in Appendix A to the ordinance codified herein are hereby adopted as the residential collection zones under such ordinance. †
 - B. Commercial and Industrial Zones. The commercial and industrial zones set out in Appendix B to the ordinance codified herein are hereby adopted as the commercial and industrial zone(s) under such ordinance. †
2. Resolution Determining Method of Collection and Conveyance. The Council may by resolution establish the mechanism for collection and conveyance of covered solid waste for each solid waste zone. The City may select any of the service options described in the Public Solid Waste Collection Ordinance codified in these chapters and may by resolution establish the fees applicable to that service.

† Editor's Note: Appendix A and Appendix B specify the entire City as a single residential zone and as the single commercial/industrial zone.

3. Different Service Options May Apply to Different Waste Categories. The City may determine that different categories of covered solid waste will be collected using different methods of collection in the same zone.
4. Factors Involved in Determination. In deciding which service option should be used in a zone, the Council may consider any factors affecting the public interest, including environmental and public health factors and the expressed preferences of citizens of the zone. The Council may also consider whether the selection provides the most economical conveyance and best service.
5. Zone Boundaries. A change in the City's borders will result in a corresponding change in zone borders.
6. City Direct Service Zone. The City may determine that residential or nonresidential collection and conveyance services, or both, will be provided directly by City employees with City equipment.
7. Selected Hauler Service Zone. The City may determine that City residential or commercial and industrial collection and conveyance services, or both, will be provided to the City by one or more selected private haulers operating under contract with the City; however, there shall be no more than one hauler operation within each zone for each type of service.
 - A. Solicitation of Hauler Proposals. In a selected hauler service zone, the Council will select one or more contract haulers to provide collection and conveyance services for covered solid waste. The City may award contracts to selected haulers for periods as specified by the Council. As part of the process of selecting haulers, the City may solicit proposals for negotiated contracts from individual haulers. Upon receipt of proposals, the City may accept one or more of these proposals, or may negotiate with one or more haulers to obtain new or different terms from those originally proposed by the haulers. The City may negotiate with potential haulers on price and terms of service. The contract with any selected hauler may provide that the hauler will be the only selected hauler for one or more classes of service, or may provide that there will be a limited number of haulers for one or more classes of service. Any contract negotiated by the City must be approved by the Council.
 - B. Negotiated Reimbursement Rates. The hauler contract may establish hauler reimbursement rates for commercial, industrial and residential services and the City shall by ordinance establish rates for residential services. The City may elect to contract with different haulers for different types of services.
 - C. Additional Reimbursement. Hauler contracts may establish separate reimbursement rates for residential services that are additional to the basic residential services.
 - D. Designation of Customers and Routes. Hauler contracts may provide that selected haulers will serve all of the customers within the selected route within the zone, or particular classifications of customers within all or a portion of the zone.

8. Multiple Contract Hauler Zone. The City may designate any zone as a multiple contract hauler zone. In a multiple contract hauler zone, the City will provide collection and transportation services under contract with any qualified hauler who agrees to enter into a contract specified by the City for a contract term specified by the City.

A. City May Limit Classification of Waste Collected. The City may determine that only certain classifications of covered solid waste may be collected by multiple contract haulers.

B. Haulers May Serve Any Customer. Haulers operating under contract to serve a zone will have an equal right to serve any property within the zone; provided that, if the contract is limited to a particular classification of covered solid waste, the hauler may collect only that classification of covered solid waste. The City may require minimum levels of service, but City contract haulers may offer differing types and qualities of service from those of other City contract haulers. Haulers may compete with other City contract haulers to determine who will serve individual properties.

C. Rates Paid by City Customer. The multiple hauler contract will provide that City customers will pay user fees to haulers. Rates charged to City customers in multiple hauler service zones will be set by haulers, subject to any limitations which may be set in the contract with the City. Contract haulers may offer differing charges and schedules of rates.

D. Procedure for Letting Contracts. From time to time, the City may establish the contents of contracts applicable to qualified hauler(s) within a zone. Contracts may be offered for terms specified by the Council. The City may set contract terms for residential or commercial/industrial service, or any classification of services.

(1) Solicitation for Proposal. Prior to offering contracts, the City may solicit proposals for multiple contract hauler zone contracts. The City may enter into negotiations with haulers to set the terms under which haulers will sign such contracts, and the negotiations may cover price, terms of service, and such other contract terms as the City may specify.

(2) Conversion to Selected Hauler Zones. If the City determines that there is insufficient interest in entering into contracts on a multiple hauler basis, or the Council determines that the public interest would otherwise be served, the City may by ordinance convert a multiple contract hauler zone to a selected hauler zone and sign contracts with an individual hauler(s) on terms authorized by this chapter.

9. Residential and Commercial/Industrial Service. This subsection governs the terms of City provided residential and commercial/ industrial service.

A. Mandatory Service. The owner or occupant of every property shall dispose of covered solid waste by City provided collection and disposal service, or if a self-hauler, ensure that the disposal of covered solid waste is carried out in an environmentally suitable manner.

(1) **City May Promulgate Regulations.** The City may from time to time establish regulations governing the size and type of containers, requirements for maintenance of cans, limitation of materials and placement for collection applicable within one or more solid waste zones. The City may from time to time establish regulations providing that certain classes of property or waste shall be handled as non-residential waste, or shall be subject to special collection and disposal requirements.

(2) **Recycling Regulations.** The City may from time to time establish regulations governing recycling for residential and commercial/industrial waste generators.

B. **Minimum Required City Service.** The City may establish a minimum level of City provided service for residential and nonresidential properties for each district. The City may establish the amount and frequency of service which will be received by users within the district in return for the minimum service charge.

(1) **Minimum Service Fee.** The City may establish a minimum service fee payable in a solid waste zone. The fee may vary within the zone according to location, type of residence, classification of property, volume of covered solid waste, or other relevant factors.

(2) **Billing.** Any service fee payable to the City shall be billed in a manner established by resolution of the City Council.

(3) **Fees for Services Beyond Minimum Required Service.** Haulers in any zone may offer services beyond the minimum level of service required by the City. Fees for such service may be negotiated between the hauler and the individual customer.

10. **Unpaid Fees.** If an owner or any person obligated to pay a service fee owed to the City fails to pay the fee in the manner prescribed, the City, for itself or on behalf of its contractors, may recover unpaid fees due under this chapter in any manner authorized by law, including, but not limited to, the following:

A. **Certification to the County Treasurer.** All rates or charges for solid waste collection services owed to the City, if not paid as provided by this chapter, shall be a lien upon the property or premises served by any of these services, upon certification to the County Treasurer that the rates or charges are due, pursuant to the provisions of Iowa Code Chapter 384.84.

B. **Civil Action.** In addition to each and every other remedy available to the City, unpaid service fees, penalties and interest may be recovered in a civil action in the name of the City or its contractor(s).

105.18 SAVINGS CLAUSE. In the event that court of competent jurisdiction determines that any provision of these chapters pertaining to solid waste control, including any of the service options included therein are unlawful or unauthorized by law, such provisions shall nonetheless survive, and the City shall select service options from the remaining options. If any court of competent jurisdiction shall rule that the application of any provision herein is invalid to a particular person or property, such judgment shall not affect the application of said provision to any other person or property not specifically included in the judgment.

105.19 ENFORCEMENT. The regulations contained herein govern violations or threatened violations and provide mechanisms for the City to use in attaining compliance with the chapters herein pertaining to solid waste control.

1. Any person, firm or corporation who violates any of the provisions of such chapters, or who fails, neglects or refuses to comply with the provisions contained herein, or who knowingly makes any false statement in any document required to be submitted under the provisions hereof, shall be guilty of a misdemeanor. Each day that a violation occurs will constitute a separate offense.

2. In the event of a violation or a threatened violation of such chapters, the City, in addition to other remedies, may institute appropriate action or proceedings to prevent, prosecute, restrain or abate such violations or threatened violation(s), and it shall be the duty of the City Attorney to commence such action.

113.01 PURPOSE. The purpose of this chapter is to provide regulatory provisions of cable television systems in the City.

113.02 DEFINITIONS. The following words and phrases, when used herein, shall, for the purposes of this chapter, have the meanings ascribed to them in this section:

1. "Company" means Heart of Iowa Communications Cooperative, an Iowa Cooperative, maintaining its offices in Union, Iowa. Each is a grantee of rights under the regulatory ordinance codified in this chapter.
2. "Federal Communications Commission" or "FCC" means the Federal agency by that name as constituted by the Communications Act of 1934, as amended.
3. "Gross subscriber revenues" means only those revenues derived from the monthly service charges paid by subscribers located within the City for regular cable television reception service, which service includes only the transmission of broadcast signals and the programming presented on the required access and origination channels, if any. Gross subscriber revenues shall not include any revenues received:
 - A. As reimbursement of expenses in the operation of any access channels;
 - B. As advertising payments;
 - C. From the leasing of cable channels;
 - D. From programs for which a per-channel or per-program charge is made; and
 - E. From furnishing other communications and nonbroadcast services either directly or as a carrier for another party or any other income derived from the system. Gross subscriber revenues shall also not include revenues received as installation charges and fees for reconnections, inspections, repairs or modifications of any installments.

4. "System" means the lines, fixtures, equipment, attachments and appurtenances thereto which are used in the construction, operation and maintenance of the community antenna television system authorized by this chapter.

113.03 GRANTING OF FRANCHISE. The regulatory ordinance codified herein which grants to the company the nonexclusive right to construct, operate and maintain a cable television system in the City was passed and adopted by the Council after a full, open and public proceeding. The proceeding was held after public notice was given and afforded all interested parties the opportunity to comment upon the legal, character, financial, technical and other qualifications of the company. Having received at said proceeding all comments regarding the qualifications of the company, the City found that the company possesses the necessary legal, technical, character, financial and other qualifications and that the company's construction arrangements are adequate and feasible. Therefore, the City grants to the company a nonexclusive franchise, right and privilege to construct, erect, operate, modify and maintain in, upon, among, across, above and over and under the highways, streets, alleys, sidewalks, public ways and public places now laid out or dedicated and all extensions thereof, and additions thereto in the City, poles, wires, cables, underground conduits, manholes and other television conductors and fixtures necessary for the maintenance and operation in the City of a cable television system for the purpose of distributing television and radio signals, and other electronic impulses in order to furnish television and radio programs, and various communications and other electronic services to the public. The right so granted includes the right to use and occupy said streets, alleys, public ways and public places and all manner of easements for the purposes set forth in this chapter.

113.04 COMPLIANCE REQUIRED GENERALLY. The company shall, at all times during the life of the regulatory ordinance codified in this chapter, be subject to all lawful exercise of the police power by the City and to such reasonable regulations as the City shall hereafter by resolution or ordinance provide. The construction, operation and maintenance of the system by the company shall be in full compliance with such portions of the National Electrical Safety Code as may be applicable and as the same may be amended and revised from time to time, and in full compliance with all other applicable rules and regulations now in effect or hereafter adopted by the Federal Communications Commission, the City or any other agency of the State or the United States, which may hereafter acquire jurisdiction of the operations of the company authorized in this chapter.

113.05 NATIONAL ELECTRIC SAFETY CODE. All facilities and equipment of the company shall be constructed and maintained in accordance with the requirements of the National Electrical Safety Code, and such applicable ordinances and regulations set forth by the City and/or any local, state or federal agencies.

113.06 FCC REGULATIONS. The company shall, at all times, comply with the rules and regulations governing CATV operations promulgated by the FCC, specifically those set out in Section 76.31 of the FCC Rules and Regulations. This shall include adherence by the company to FCC rules regarding technical and engineering specifications involved in the construction of the CATV system and signal carriage therein.

113.07 MODIFICATION OF FCC RULES. Consistent with the requirements of Rule 76.31 (a)(6) of the FCC, any modification of Rule 76.31 resulting from amendment thereto by the FCC shall be incorporated in this chapter by specific amendment thereto by lawful action

of the Council within one year from the effective date of the FCC's amendment or at the time of renewal of the ordinance codified in this chapter, whichever occurs first.

113.08 TRANSFER. The company shall not sell or transfer its system to another, or transfer any rights under this chapter to another without written notice and approval by the City; provided, that such approval shall not be unreasonably withheld if the vendee, assignee or lessee has filed with the appropriate official of the City an instrument duly executed, reciting the fact of such sale, assignment or lease, accepting the terms of this chapter and agreeing to perform all conditions thereof.

113.09 COMPANY RULES AND REGULATIONS. The company shall have the authority to promulgate such rules, regulations, terms and conditions governing the conduct of its business as shall be reasonably necessary to enable the company to exercise its rights and perform its obligations under this chapter and to assure uninterrupted service to each and all of its customers; provided, however, that such rules, regulations, terms and conditions shall not be in conflict with the provisions hereof or of federal and State law.

113.10 FRANCHISE TERM. The franchise granted under this chapter shall terminate twenty-five (25) years from the date of grant, subject to renewal for period of reasonable duration on the same terms and conditions as contained in this chapter, or on such different or additional terms and conditions as may be lawfully specified by the council and as are consistent with the requirements of Rule 76.31 of the FCC.

113.11 FRANCHISE RENEWAL. No renewal of the ordinance codified in this chapter shall be effective except pursuant to a public proceeding affording due process. The company shall be a party to any such proceedings and any other proceedings in which its rights, privileges or interests would be affected and shall be fully entitled to such due process rights as may be available under applicable laws, ordinances, rules and regulations.

113.12 SYSTEM CONSTRUCTION, MAINTENANCE AND PROCEDURES.

1. In furtherance of the company's execution of contracts with public utility companies or any other owner or lessee of any poles located within or without the City to whatever extent such contract or contracts may be expedient and of advantage to the company for use of poles and posts necessary for proper installation of the system, the company may obtain right-of-way permits from appropriate state, county and federal officials necessary to cross highways or roads under their respective jurisdictions, to supply main trunk lines from the company's receiving antennas, obtain permission from the Federal Aviation Authority to erect and maintain antennas suitable to the needs of the system and its subscribers and obtain whatever other permits a City, county, state or federal agency may require. The company shall construct its cable system using material of good and durable quality and all work involved in the construction, installation, maintenance and repair of the cable system shall be performed in a safe, thorough and reliable manner. Any municipal property damaged or destroyed shall be promptly repaired or replaced by the company and restored to serviceable condition.

2. The company's system, poles, wires and appurtenances shall be located, erected and maintained so that none of its facilities shall endanger or interfere with the lives of persons or interfere with any improvements the City may deem proper to

make or unnecessarily hinder or obstruct the free use of the streets, alleys, bridges, easements or public property.

3. In the event that the City annexes further territory as authorized by the law, the company shall extend energized trunk cable to the remaining portions of the City so annexed within an acceptable time thereafter, unless additional time is granted by the council upon request of the company for good cause shown. Extension of service shall not be one of the requirements as set forth in this section.

4. All transmission and distribution structures, lines and equipment erected by the company within the City shall be so located as to cause minimum interference with the proper use of streets, alleys and other public ways and places, and to cause minimum interference with the rights of reasonable convenience of property owners who adjoin any of the said streets, alleys or other public ways and places. In the event the electrical and phone lines are buried to the subscriber's residence, the company shall be required to bury the cable also.

5. In case of any disturbance of pavement, sidewalk, driveway, grass or other surfacing, the company shall, at its own cost and expense and in a manner approved by the City, replace and restore all paving, sidewalk, driveway, grass, shrubs, trees, fences or surface of any street or alley or other public or private property in as good condition as before said work was commenced.

6. In the event that at any time during the period of the franchise the City lawfully elects to alter or change the grade of any street, alley or other public way, the company, upon reasonable notice by the City, shall remove, relay or relocate its poles, wires, cables, underground conduits, manholes and other fixtures at its own expense.

7. The company shall not place poles or other fixtures where the same will interfere with any gas, electric or telephone fixtures, water hydrants or mains and all such poles or other fixtures placed in any street shall be placed at the outer edge of the sidewalk and inside the curb line, and those placed in alleys shall be placed close to the line of the lot abutting on said alley, and then in such manner as not to interfere with the usual travel on said streets, alleys and public ways.

8. The company shall, on the request of any person holding a building moving permit issued by the City temporarily raise or lower its wires to permit the moving of buildings. The expense of such temporary removal, raising or lowering of wires shall be paid by the person requesting the same and the company shall have the authority to require such payment in advance. The company shall be given no less than forty-eight (48) hours advance notice to arrange for such temporary wire changes.

9. The company shall have the authority to trim trees upon and overhanging streets, alleys, sidewalks and public places of the City so as to prevent the branches of such trees from coming in contact with the wires and cables. All tree trimming is to be done under the direction of the City and at the expense of the company.

10. The company shall provide, upon request and without charge, service to any municipal buildings owned and operated by the City and to any public or parochial elementary or secondary school. This shall mean only an energized cable to such building. The cost of any internal wiring shall be borne by the institution.

113.13 LINE EXTENSIONS. It shall be the obligation of the company to serve all residents of the City except to the extent that density of homes, adverse terrain or other

factors render providing service impracticable, technically infeasible or economically noncompensatory. For purposes of determining compliance with the provisions of this section, the company shall extend service to new subscribers at the normal installation charge and monthly rate for customers of that classification where there is an average of forty-five (45) homes per each linear mile of new cable construction. In the event that the requirements of this section are not met, extensions of service shall be required only on a basis which is reasonable and compensatory.

113.14 CITY RIGHTS.

1. **City Rules.** The right is reserved by the City to adopt, in addition to the provisions contained in this chapter and existing applicable ordinances, such additional regulations as it shall find necessary in the exercise of its police power; provided, that such regulations, by ordinance or otherwise, shall be reasonable and not in conflict with the rights granted in this chapter, and shall not be in conflict with the applicable laws of the State or the United States.
2. **Emergency or Disaster.** In the case of any emergency or disaster, the company shall, upon request of the City, make available its facilities to the City for emergency use during the emergency or disaster period.
3. **No Property Right.** Nothing in this chapter shall grant to the company any right of property in the City-owned property, nor shall the City be compelled to maintain any of its property any longer than or in any fashion other than in the City's judgment, its own business or needs may require.
4. **Construction Approval by City.** Except for individual service drops, the company shall not erect any pole, install any underground lines or conduits, run any line, make any attachment, nor shall any construction of any kind be commenced without the prior approval of the director of engineering or appropriate department of the City, which approval shall not be unreasonably withheld, and the City shall have and maintain the right to inspect the construction, operation and maintenance of the system by the company to insure the proper performance of the terms of this chapter.

The nearby office shall be open to receive inquiries or complaints from subscribers during normal business hours, and in no event less than nine o'clock (9:00) a.m. to five o'clock (5:00) p.m., Monday through Friday. Any complaints from subscribers shall be investigated and acted upon as soon as possible, but at least within four (4) business days of their receipt. The company shall keep a maintenance service log which will indicate the nature of each service complaint, the date and time it was received, the disposition of said complaint and the time and date thereof. This log shall be made available for periodic inspection by the City.

113.19 PROTECTION OF PRIVACY. The company shall not permit the transmission of any signal, aural, visual or digital, including "polling" the channel selection, from any subscriber's premises without first obtaining written permission of the subscriber. It is unlawful for any person to attach or affix or cause to be attached or affixed any equipment or device which allows access or use of the cable television service without payment to the company for same. Such action shall be a simple misdemeanor.

113.20 PROGRAM CONTENT RESTRICTIONS. In addition to providing basic cable television service consisting of broadcast and automated signals, the company may offer subscribers optional services on a per-program or per-channel basis. However, the company shall not display X-rated motion pictures either as part of its basic cable or pay cable services.

113.21 DISCRIMINATION PROHIBITED. The company shall not refuse to hire or discriminate against any person regarding compensation, terms, conditions or privileges of employment because of sex, age, race, color, creed or national origin. The company shall take affirmative action to insure that employees are treated, during employment, without regard to their sex, age, race, color, creed or national origin.

113.22 LIABILITY AND INDEMNIFICATION. The company shall indemnify the City and hold it harmless from all liability, damage, cost or expense arising from claims of injury to persons or damage to property occasioned by reason of any conduct undertaken pursuant to this chapter. The City shall notify the company's representative within fifteen (15) days after the presentation of any claim or demand to the City, either by suit, or otherwise, made against the City on account of any negligence or contract as aforesaid on the part of the company. The company agrees as follows:

1. The company shall carry Worker's Compensation insurance with statutory limits and Employers' Liability insurance with limits of not less than one hundred thousand dollars (\$100,000.00) which shall cover all operations to be performed by the company as a result of this chapter.
2. The amounts of insurance to be carried for liability due to property damage shall be five hundred thousand dollars (\$500,000.00) as to any one occurrence and

The company shall thereafter diligently pursue such application with the Federal Communications Commission and shall do all reasonable things necessary and proper to secure any such permit, license, waiver, approval or the like from it. The company shall keep the City advised, from time to time, of the progress of such application.

2. The company shall not, as to rates, charges, service facilities, rules, regulations or in any other respect, make or grant any preference or advantage to any person, nor subject any person to any prejudice or disadvantage, provided that nothing in this chapter shall be deemed to prohibit the establishment of a graduated scale of charges and classified rate schedules to which any customer coming within such classification would be entitled.

2. Abutting Property. The proposed vacation will not deny owners of property abutting on the street or alley reasonable access to their property.

(Code of Iowa, Sec. 364.15)

137.04 DISPOSAL OF VACATED STREETS OR ALLEYS. When in the judgment of the Council it would be in the best interest of the City to dispose of a vacated street or alley, or portion thereof, the Council may do so in accordance with the provisions of Section 364.7, Code of Iowa.

(Code of Iowa, Sec. 364.7)

137.05 DISPOSAL BY GIFT LIMITED. The City may not dispose of real property by gift except to a governmental body for a public purpose or to a fair.

145.01 ENFORCEMENT OFFICER. The Mayor is responsible for the enforcement of this chapter.

145.02 GENERAL DEFINITION OF UNSAFE. All buildings or structures which are structurally unsafe or not provided with adequate egress, or which constitute a fire hazard, or are otherwise dangerous to human life, or which in relation to existing use constitute a hazard to safety or health, or public welfare, by reason of inadequate maintenance, dilapidation, obsolescence, or abandonment, are, for the purpose of this chapter, unsafe buildings. All such unsafe buildings are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition, or removal in accordance with the procedure specified in this chapter.

(Code of Iowa, Sec. 657A.1 & 364.12[3a])

145.03 UNSAFE BUILDING. “Unsafe building” means any structure or mobile home meeting any or all of the following criteria:

1. Various Inadequacies. Whenever the building or structure, or any portion thereof, because of (a) dilapidation, deterioration, or decay; (b) faulty construction; (c) the removal, movement or instability of any portion of the ground necessary for the purpose of supporting such building; (d) the deterioration, decay or inadequacy of its foundation; or (e) any other cause, is likely to partially or completely collapse.
2. Manifestly Unsafe. Whenever, for any reason, the building or structure, or any portion thereof, is manifestly unsafe for the purpose for which it is being used.
3. Inadequate Maintenance. Whenever a building or structure, used or intended to be used for dwelling purposes, because of dilapidation, decay, damage, faulty construction, or otherwise, is determined by any health officer to be unsanitary, unfit for human habitation or in such condition that it is likely to cause sickness or disease.
4. Fire Hazard. Whenever any building or structure, because of dilapidated condition, deterioration, damage, or other cause, is determined by the Fire Marshal or Fire Chief to be a fire hazard.
5. Abandoned. Whenever any portion of a building or structure remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned for a period in excess of six (6) months so as to constitute such building or portion thereof an attractive nuisance or hazard to the public.

145.04 NOTICE TO OWNER. The enforcement officer shall examine or cause to be examined every building or structure or portion thereof reported as dangerous or damaged and, if such is found to be an unsafe building as defined in this chapter, the enforcement officer shall give to the owner of such building or structure written notice stating the defects thereof. This notice may require the owner or person in charge of the building or premises, within forty-eight (48) hours or such reasonable time as the circumstances require, to commence either the required repairs or improvements or demolition and removal of the building or structure or portions thereof, and all such work shall be completed within ninety (90) days from date of notice, unless otherwise stipulated by the enforcement officer. If necessary, such notice shall also require the building, structure, or portion thereof to be vacated forthwith and not reoccupied until the required repairs and improvements are completed, inspected and approved by the enforcement officer.

(Code of Iowa, Sec. 364.12 [3h])

1. Notice Served. Such notice shall be served by sending by Certified Mail to owner of record, according to Section 364.12[3h] of the Code of Iowa, if the owner is found within the City limits. If the owner is not found within the City limits such service may be made upon the owner by registered mail or certified mail. The designated period within which said owner or person in charge is required to comply with the order of the enforcement officer shall begin as of the date the owner receives such notice.
2. Hearing. Such notice shall also advise the owner that he or she may request a hearing before the Council on the notice by filing a written request for hearing within the time provided in the notice.

145.05 CONDUCT OF HEARING. If requested, the Council shall conduct a hearing in accordance with the following:

1. Notice. The owner shall be served with written notice specifying the date, time and place of hearing.
2. Owner's Rights. At the hearing, the owner may appear and show cause why the alleged nuisance shall not be abated.
3. Determination. The Council shall make and record findings of fact and may issue such order as it deems appropriate.

145.06 POSTING OF SIGNS. The enforcement officer shall cause to be posted at each entrance to such building a notice to read: "DO NOT ENTER. UNSAFE TO OCCUPY. CITY OF UNION, IOWA." Such notice shall remain posted until the required repairs, demolition, or removal are completed. Such notice shall not be removed without written permission of the enforcement officer and no person shall enter the building except for the purpose of making the required repairs or of demolishing the building. †

145.07 RIGHT TO DEMOLISH; MUNICIPAL INFRACTION. In case the owner fails, neglects, or refuses to comply with the notice to repair, rehabilitate, or to demolish and remove the building or structure or portion thereof, the Council may order the owner of the

building prosecuted as a violator of the provisions of this chapter and may order the enforcement officer to proceed with the work specified in such notice. A statement of the cost of such work shall be transmitted to the Council. As an alternative to this action, the City may utilize the municipal infraction process to abate the nuisance.

(Code of Iowa, Sec. 364.12[3h])

145.08 COSTS. Costs incurred under Section 145.07 shall be paid out of the City treasury. Such costs shall be charged to the owner of the premises involved and levied as a special assessment against the land on which the building or structure is located, and shall be certified to the County Treasurer for collection in the manner provided for other taxes. In addition, the City may take any other action deemed appropriate to recover costs incurred.

CHAPTER 150

BUILDING NUMBERING

150.01 Buildings to Be Numbered
150.02 Numbering System

150.03 Type of Numbers; Size
150.04 Enforcement

150.01 BUILDINGS TO BE NUMBERED. All buildings now or hereafter erected within the City limits and used as principal structures for residency or business shall be assigned numbers and the owners notified of the assigned number. Any building not used as a principal structure but which is provided with a separate utility service shall also be assigned a number. The owners shall cause the numbers to be placed and maintained on their property.

150.02 NUMBERING SYSTEM. Numbers shall be assigned in accordance with the system developed by the City Council. The east streets shall have even numbers on the south side and odd numbers on the north side. The south streets shall have even numbers on the east side and odd numbers on the west side. The owner shall obtain the assigned number to the principal building from the Clerk.

150.03 TYPE OF NUMBERS; SIZE. The numbers shall be conspicuously displayed on the portion of the building of which primary entrance faces the street. If the numbers are not displayed on the building, they must be installed in a manner and location to avoid confusion as to the building identified. Curbside painted numbers will not satisfy the requirements of this chapter. All numbers shall be of durable substance, clearly legible and shall not be less than four inches (4") in height in a color contrasting with the surrounding material.

150.04 ENFORCEMENT. If numbers meeting the requirements of this chapter have not been placed on each building, the City shall cause individual notice to be given to the owner of buildings not numbered, requiring compliance within one month of the date of this notice. Any person or organization found to be in violation thereof shall be deemed to have committed a simple misdemeanor, punishable as provided by law and/or as a municipal infraction. In addition, upon application and showing of cause, injunction relief may be sought as a remedy, each daily violation punishable as a separate misdemeanor and/or municipal infraction.

155.01 PURPOSE. The purpose of this chapter is to provide and establish reasonable rules and regulations for the erecting and altering of buildings in the City, as well as the use and occupancy of such buildings.

(Code of Iowa, Sec. 364.1)

155.02 BUILDING OFFICIAL. The City Council is the Building Official and is responsible for the administration and enforcement of this chapter.

155.03 PERMIT REQUIRED. No building or other structure shall be erected or altered within the City without first receiving a permit therefor. A permit is required for work such as new homes, additions, patios, decks, porches, garages, accessory buildings, or for work that would change the outside dimensions of an existing building. A permit is not required for interior remodeling, roofing, window replacement, or siding a building. The construction of a fence does not require a building permit, but the construction of such fence shall comply with standards established in this chapter.

155.04 APPLICATION. Application shall be made in writing, filed with the Building Official and contain the following information:

1. Name. The name and address of the applicant.
2. Location. The street address and full legal description of the property.
3. Proposed Work. The nature of work proposed to be done.
4. Use. The use for which the structure is or will be used.
5. Plans. Application for permits shall be accompanied by such drawings of the proposed work, including such floor plans, sections, elevations and structural details, as the Building Official may require. There shall also be filed a diagram or sketch in a form and size acceptable to the Building Official with all dimensions figured, showing accurately the size and location of the lot to be built upon, and the location and size of the building or structure to be erected or altered.

155.05 FEE. A permit fee, as established by resolution of the Council, shall be paid to the City prior to issuance of the permit. In the event that work has commenced without first obtaining a permit, the permit fee shall be doubled. The payment of such double fee shall not relieve any persons from fully complying with the requirements of this chapter in the execution of the work.

155.06 AMENDMENTS. Nothing shall prohibit the filing of amendments to an application or to a plan or other record accompanying same, at any time before the completion of the work for which the permit was sought. Such amendments, after approval, shall be filed with and be deemed a part of the original application.

155.07 COMPLETION OF EXISTING BUILDINGS. Nothing contained in this chapter shall require any change in the plans, construction, or size of a building for which construction was started before the effective date of this chapter; provided, however, construction under such circumstances shall be completed within two (2) years after the effective date of this chapter. Extensions to this time frame may be granted by an affirmative vote of three-fourths ($\frac{3}{4}$) of all of the members of the Council.

155.08 APPLICATION APPROVED. It is the duty of the Building Official to examine applications for permits within a reasonable time after filing. If, after examination, the Building Official finds no objection to the same and it appears that the proposed work will be in compliance with the laws and ordinances applicable thereto, the Building Official shall issue a permit therefor.

155.09 APPLICATION DENIED; APPEAL. If the Building Official denies an application for permit, the reasons for such denial shall be stated and the applicant notified of such denial and of the right to appeal to the Council. The Council upon appeal may affirm, modify, or reverse the determination of the Building Official; provided, however, no application shall be approved and permit issued which would result in an abrogation of the intent and purpose of this chapter.

155.10 RESTRICTIONS. No permit for the erection or alteration of a building or similar structure shall be granted unless it definitely appears that such erection or alteration shall not cause or be the source of the following:

(Code of Iowa, Sec. 414.24)

1. Noise. Any undue noise.
2. Electrical Interference. Any undue radio or television interference.
3. Odors. Any offensive odors.
4. Refuse. Any offensive or unsightly refuse.
5. Smoke. Any offensive or undue smoke.
6. Fire Hazard. Any fire hazard.
7. Appearance. Any unsightliness due to the appearance of any building or structure on the premises.
8. Congestion. Any undue gathering, congregating, parking of cars or undue congestion of people or traffic.

9. Other. Any effect that will be obnoxious, offensive, dangerous, or injurious to the health, welfare, and safety of citizens.

155.11 CONDITION OF THE PERMIT. All work performed under any permit shall conform to the approved application and plans, and approved amendments thereof. The location of all new construction as shown on the approved plan, or an approved amendment thereof, shall be strictly adhered to. It is unlawful to reduce or diminish the area of a lot or plot of which a plan has been filed and has been used as the basis for a permit, unless a revised plan showing the proposed change in conditions shall have been filed and approved; provided that this shall not apply when the lot is reduced by reason of a street opening or widening or other public improvement.

155.12 REVOCATION. The Building Official may revoke a permit or approval issued under the provisions of this chapter in case there has been any false statement or misrepresentation as to a material fact in the application or plans on which the permit or approval was based.

155.13 PERMIT VOID. The permit becomes null and void if work or construction authorized is not commenced within sixty (60) days, or if construction or work is suspended or abandoned for a period of one hundred twenty (120) days at any time after work is commenced, or if the work is not completed within the time frame specified in the building permit. Extensions to these time frames may be granted by an affirmative vote of three-fourths ($\frac{3}{4}$) of all of the members of the Council.

155.14 RESTRICTED RESIDENCE DISTRICT. The restricted residence district for the City is depicted on the official restricted residence district map that is hereby adopted by reference and is on file in the office of the Clerk.

155.15 PROHIBITED USE. No building or other structure, except residences, schoolhouses, churches, and other similar structures, shall be erected, altered, used, or occupied within the restricted residence district as defined herein without first receiving from the Council a special use permit therefor. No such special use permit shall be issued without the affirmative vote of three-fourths ($\frac{3}{4}$) of all of the members of the Council.

(Code of Iowa, Sec. 414.24)

155.16 HOME-BASED OCCUPATIONS. For any occupation carried on by a member of the immediate family, residing on the premises, in connection with which there is used no sign other than a nameplate not more than two (2) square feet in area or no display that will indicate from the exterior that the building is being utilized in whole or in part for any purpose other than that of a dwelling; there is kept no stock in trade nor commodity sold upon the premises; no mechanical equipment is used except such as is permissible for purely domestic or household purposes; the use occupies no more than twenty-five percent (25%) of the gross floor area of the residence; a special use permit shall be issued upon the affirmative vote of three-fourths ($\frac{3}{4}$) of all the members of the Council.

155.17 EXCEPTIONS. The provisions of the preceding section shall have no application to any business, store, shop, or factory existing and in operation in a restricted residence district on the effective date of this chapter, except in the matter of reconstruction, alteration or change in use of the structure.

155.18 PROTEST. No special use permit shall be granted when sixty percent (60%) of the residential real estate owners in the restricted residence district who are located within six hundred (600) feet of the proposed building or occupancy object thereto, except by a unanimous vote of all of the members of the Council.

155.19 NOTICE REQUIREMENTS. Whenever a restricted residence district is established or its boundaries changed, a public hearing must be held, notice of which shall be given at least seven (7) days in advance of the hearing and in the manner prescribed in Section 18.05 of this Code of Ordinances. In no case shall the public hearing be held earlier than the next regularly scheduled City Council meeting following the published notice.

(Code of Iowa, Sec. 414.24)

155.20 FRONT YARD REQUIREMENTS. Within the restricted residence district there shall be a front yard of not less than ten (10) feet (measured from the front lot line), except as follows:

(Code of Iowa, Sec. 414.24)

1. **Between Existing Buildings.** Where a building is to be erected on a parcel of land that is within one hundred (100) feet of existing buildings on both sides, the minimum front yard shall be a line drawn between the closest front corners of the adjacent buildings on the two (2) sides, or
2. **Adjacent to Existing Building.** Where a building is to be erected on a parcel of land that is within one hundred (100) feet of an existing building on one side only within the same block, such building may be erected as close to the street as a line drawn from the closest front corner of that building to a point ten (10) feet back from the front lot line measured at the center of the lot on which the proposed building is to be erected.
3. **Double Frontage.** Where lots have a double frontage, the front yard as required herein shall be provided on both streets.

155.21 SIDE YARD REQUIREMENTS. Within the restricted residence district no building shall be erected closer than three (3) feet to either side lot line.

(Code of Iowa, Sec. 414.24)

155.22 GARAGES AND OTHER ACCESSORY BUILDINGS. A garage or other similar accessory building may be built in a rear yard but such garage or accessory building shall not be nearer than two (2) feet to any side or rear lot line, except that when a garage is entered from an alley it shall not be located closer than ten (10) feet to the alley line and except that a garage that is located closer than ten (10) feet to the rear line of the main building shall provide the side yard for the main building. Also, a garage or accessory building may be built in a side yard if compliance is made with the same side yard requirements as for the main building.

155.23 FENCES.

1. **Materials.** Fences shall be constructed of material commonly used for landscape fencing such as masonry block, lumber, chain-link, wrought iron or natural plantings, but shall not include corrugated sheet metal or salvage material. The owner of a fence shall provide and maintain a two-foot setback from adjoining property for the purpose of fence maintenance access.

2. Placement. Fences in which the openings between the materials of which the fence is constructed represent less than seventy percent (70%) of the total surface may be erected to a height not exceeding four (4) feet along the boundaries of a lot, except that no such fence shall be erected within thirty (30) feet of the intersection of two (2) street lines. Wire fences and other fences in which the openings between the materials of which the fence is constructed represent more than seventy percent (70%) of the total fence area may be erected to a height of six (6) feet, except within thirty (30) feet of the intersection of two (2) street lines.

155.24 EXISTING LOTS. No yard or lot existing on the effective date of this chapter shall be reduced in dimension or area below the minimum requirements established in this chapter.

155.25 CERTIFYING ORDINANCES. Within fifteen (15) days of the effective date of the adoption of any amendments to the provisions of this chapter, the Clerk shall certify such amendment to the County Recorder.

(Code of Iowa, Sec. 380.11)

155.26 ABATEMENT OF VIOLATION. Any building or structure erected, altered, used or occupied in violation of this chapter shall be determined a nuisance, and the same may be abated by the City or by any property owner within said district in the manner provided for the abatement of nuisances.

EDITOR'S NOTE

The following ordinance has been adopted amending the Land Use Zoning Map and has not been codified herein but is specifically saved from repeal and is in full force and effect.

160.01 PURPOSE. It is the purpose of this chapter to protect and preserve the rights, privileges and property of the City and its residents and to preserve and improve the peace, safety, health, welfare and comfort and convenience of its residents by minimizing flood losses with provisions designed to:

1. Restrict Use. Restrict or prohibit uses which are dangerous to health, safety, or property in times of flood or which cause excessive increases in flood heights or velocities.
2. Vulnerable Uses Protected. Require that uses vulnerable to floods, including public facilities which serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.
3. Unsuitable Land Purchases. Protect individuals from buying lands which may not be suited for intended purposes because of flood hazard.
4. Flood Insurance. Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.

160.02 DEFINITIONS. Unless specifically defined below, words or phrases used in this chapter shall be interpreted so as to give them the meaning they have in common usage and to give this chapter its most reasonable application.

1. “Base flood” means the flood having one (1) percent chance of being equaled or exceeded in any given year. (See 100-year flood.)
2. “Basement” means any enclosed area of a building which has its floor or lowest level below ground level (subgrade) on all sides. Also see “lowest floor.”
3. “Development” means any manmade change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.
4. “Existing construction” means any structure for which the “start of construction” commenced before the effective date of the community’s Flood Insurance Rate Map. May also be referred to as “existing structure.”

5. “Existing factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) was completed before the effective date of these flood plain management regulations.
6. “Expansion of existing factory-built home park or subdivision” means the preparation of additional sites by the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).
7. “Factory-built home” means any structure designed for residential use which is wholly or in substantial part made, fabricated, formed or assembled in manufacturing facilities for installation or assembly and installation on a building site. For the purpose of this chapter, factory-built homes include mobile homes, manufactured homes and modular homes and also includes “recreational vehicles” which are placed on a site for greater than 180 consecutive days and not fully licensed for and ready for highway use.
8. “Factory-built home park” means a parcel or contiguous parcels of land divided into two or more factory-built home lots for sale or lease.
9. “Flood” means a general and temporary condition of partial or complete inundation of normally dry land areas resulting from the overflow of streams or rivers or from the unusual and rapid runoff of surface waters from any source.
10. “Flood elevation” means the elevation floodwaters would reach at a particular site during the occurrence of a specific flood. For instance, the 100-year flood elevation is the elevation of floodwaters related to the occurrence of the 100-year flood.
11. “Flood Insurance Rate Map (FIRM)” means the official map prepared as part of (but published separately from) the Flood Insurance Study which delineates both the flood hazard areas and the risk premium zones applicable to the community.
12. “Flood plain” means any land area susceptible to being inundated by water as a result of a flood.
13. “Flood plain management” means an overall program of corrective and preventive measures for reducing flood damages and promoting the wise use of flood plains, including but not limited to emergency preparedness plans, flood control works, floodproofing and flood plain management regulations.
14. “Floodproofing” means any combination of structural and nonstructural additions, changes, or adjustments to structures, including utility and sanitary facilities which will reduce or eliminate flood damage to such structures.
15. “Floodway” means the channel of a river or stream and those portions of the flood plains adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one (1) foot.

16. “Floodway fringe” means those portions of the flood plain, other than the floodway, which can be filled, leveed, or otherwise obstructed without causing substantially higher flood levels or flow velocities.
17. “Historic structure” means any structure that is:
- A. Listed individually in the National Register of Historic Places, maintained by the Department of Interior, or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing in the National Register;
 - B. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
 - C. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or,
 - D. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified by either (i) an approved state program as determined by the Secretary of the Interior or (ii) directly by the Secretary of the Interior in states without approved programs.
18. “Lowest floor” means the floor of the lowest enclosed area in a building including a basement except when all the following criteria are met:
- A. The enclosed area is designed to flood to equalize hydrostatic pressure during floods with walls or openings that satisfy the provisions of Section 160.09(4)(A); and
 - B. The enclosed area is unfinished (not carpeted, drywalled, etc.) and used solely for low damage potential uses such as building access, parking or storage; and
 - C. Machinery and service facilities (e.g., hot water heater, furnace, electrical service) contained in the enclosed area are located at least one (1) foot above the 100-year flood level; and
 - D. The enclosed area is not a “basement” as defined in this section.

In cases where the lowest enclosed area satisfies criteria A, B, C and D above, the lowest floor is the floor of the next highest enclosed area that does not satisfy the criteria above.

19. “New construction” (new buildings, factory-built home parks) means those structures or development for which the start of construction commenced on or after the effective date of the Flood Insurance Rate Map.

20. “New factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the

pouring of concrete pads) is completed on or after the effective date of these flood plain management regulations.

21. “100-Year Flood” means a flood, the magnitude of which has a one percent (1%) chance of being equaled or exceeded in any given year or which, on the average, will be equaled or exceeded at least once every one hundred (100) years.

22. “Recreational vehicle” means a vehicle which is:

- A. Built on a single chassis;

23. “Special flood hazard area” means the land within a community subject to the “100-year flood.” This land is identified as Zone A on the Flood Insurance Rate Map.

24. “Start of construction” includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of the building, whether or not that alteration affects the external dimensions of the building.

25. “Structure” means anything constructed or erected on the ground or attached to the ground, including, but not limited to, buildings, factories, sheds, cabins, factory-built homes, storage tanks and other similar uses.

26. “Substantial damage” means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damage condition would equal or exceed fifty (50) percent of the market value of the structure before the damage occurred.

27. “Substantial improvement” means any improvement to a structure which satisfies either of the following criteria:

- A. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the market value of the structure either (i) before the “start of construction” of the improvement, or (ii) if the structure has been “substantially damaged” and is being restored, before the damage occurred. The term does not, however, include any project for

improvement of a structure to comply with existing State or local health, sanitary, or safety code specifications which are solely necessary to assure safe conditions for the existing use. The term also does not include any alteration of an “historic structure,” provided the alteration will not preclude the structure’s designation as an “historic structure.”

B. Any addition which increases the original floor area of a building by twenty-five (25) percent or more.

All additions constructed after the effective date of the Flood Insurance Rate Map shall be added to any proposed addition in determining whether the total increase in original floor space would exceed twenty-five percent.

28. “Variance” means a grant of relief by a community from the terms of the flood plain management regulations.

29. “Violation” means the failure of a structure or other development to be fully compliant with this chapter.

160.03 LANDS TO WHICH CHAPTER APPLIES. The provisions of this chapter shall apply to all areas having special flood hazards within the jurisdiction of the City. For the purpose of this chapter, the special flood hazard areas are those areas designated as Zone A on the Flood Insurance Rate Map for the City, June 1, 1987, as amended, which is hereby adopted and made a part of this chapter.

160.04 RULES FOR INTERPRETATION OF FLOOD HAZARD BOUNDARIES. The boundaries of the Special Flood Hazard areas shall be determined by scaling distances on the official Flood Insurance Rate Map. When an interpretation is needed as to the exact location of a boundary, the Mayor shall make the necessary interpretation. The Council shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Mayor in the enforcement or administration of this chapter.

160.05 COMPLIANCE. No structure or land shall hereafter be used and no structure shall be located, extended, converted or structurally altered without full compliance with the terms of this chapter and other applicable regulations which apply to uses within the jurisdiction of this chapter.

160.06 ABROGATION AND GREATER RESTRICTIONS. It is not intended by this chapter to repeal, abrogate or impair any existing easements, covenants, or deed restrictions. However, where this chapter imposes greater restrictions, the provision of this chapter shall prevail. Any ordinances inconsistent with this chapter are hereby repealed to the extent of the inconsistency only.

160.07 INTERPRETATION. In their interpretation and application, the provisions of this chapter shall be held to be minimum requirements and shall be liberally construed in favor of the Council and shall not be deemed a limitation or repeal of any other powers granted by State statutes.

160.08 WARNING AND DISCLAIMER OF LIABILITY. The standards required by this chapter are considered reasonable for regulatory purposes. This chapter does not imply that areas outside the designated special flood hazard areas will be free from flooding or flood damages. This chapter shall not create liability on the part of the City or any officer or

employee thereof for any flood damages that result from reliance on this chapter or any administrative decision lawfully made thereunder.

160.09 FLOOD PLAIN MANAGEMENT STANDARDS. All uses must be consistent with the need to minimize flood damage and shall meet the following applicable performance standards. Where 100-year flood data has not been provided in the Flood Insurance Rate Map, the Department of Natural Resources shall be contacted to compute such data.

1. All development within the special flood hazard areas shall:
 - A. Be consistent with the need to minimize flood damage.
 - B. Use construction methods and practices that will minimize flood damage.
 - C. Use construction materials and utility equipment that are resistant to flood damage.
 - D. Obtain all other necessary permits from Federal, State and local governmental agencies including approval when required from the Iowa Department of Natural Resources.
2. Residential buildings. All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one (1) foot above the 100-year flood level. Construction shall be upon compacted fill which shall, at all points, be no lower than one (1) foot above the 100-year flood level and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers) may be allowed, subject to favorable consideration by the City Council, where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding. All new residential structures shall be provided with a means of access which will be passable by wheeled vehicles during the 100-year flood.
3. Nonresidential buildings. All new or substantially improved nonresidential buildings shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the 100-year flood level, or together with attendant utility and sanitary systems, be floodproofed to such a level. When floodproofing is utilized, a professional engineer registered in the State shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the 100-year flood; and that the structure, below the 100-year flood level, is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to National Geodetic Vertical Datum) to which any structures are floodproofed shall be maintained by the Administrator.
4. All new and substantially improved structures:
 - A. Fully enclosed areas below the "lowest floor" (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be

certified by a registered professional engineer or meet or exceed the following minimum criteria:

- (1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
- (2) The bottom of all openings shall be no higher than one foot above grade.
- (3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

B. New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

C. New and substantially improved structures must be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

5. Factory-built homes:

A. All factory-built homes including those placed in existing factory-built home parks or subdivisions shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one (1) foot above the 100-year flood level.

B. All factory-built homes including those placed in existing factory-built home parks or subdivisions shall be anchored to resist flotation, collapse or lateral movement. The following specific requirements (or their equivalent) shall be met:

- (1) Over-the-top ties shall be provided at each of the four corners of the factory-built home, with two (2) additional ties per side at intermediate locations and factory-built homes less than fifty (50) feet long requiring one (1) additional tie per side;
- (2) Frame ties shall be provided at each corner of the home with five (5) additional ties per side at intermediate points and factory-built homes less than fifty (50) feet long requiring four (4) additional ties per side;
- (3) All components of the anchoring system shall be capable of carrying a force of 4800 pounds.
- (4) Any additions to factory-built homes shall be similarly anchored.

6. Utility and Sanitary Systems.
 - A. On-site waste disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.
 - B. All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system as well as the discharge of effluent into flood waters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one (1) foot above the 100-year flood elevation.
 - C. New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system. Water supply treatment facilities other than on-site systems shall be provided with a level of protection equal to or greater than one (1) foot above the 100-year flood elevation.
 - D. Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.
7. Storage of materials and equipment that are flammable, explosive or injurious to human, animal or plant life is prohibited unless elevated a minimum of one (1) foot above the 100-year flood level. Other material and equipment must either be similarly elevated or (i) not be subject to major flood damage and be anchored to prevent movement due to flood waters or (ii) be readily removable from the area within the time available after flood warning.
8. Flood control structural works such as levees, flood-walls, etc. shall provide, at a minimum, protection from a 100-year flood with a minimum of 3 feet of design freeboard and shall provide for adequate interior drainage. In addition, structural flood control works shall be approved by the Department of Natural Resources.
9. Watercourse alterations or relocations must be designed to maintain the flood within the altered or relocated portion.
10. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this chapter. Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the 100-year flood. Proposals for subdivisions greater than five (5) acres or fifty (50) lots (whichever is less) shall include 100-year flood elevation data for those areas located within the Special Flood Hazard Area.
11. Accessory Structures.
 - A. Detached garages, sheds, and similar structures accessory to a residential use are exempt from the 100-year flood elevation requirements where the following criteria are satisfied:
 - (1) The structure shall not be used for human habitation.

- (2) The structure shall be designed to have low flood damage potential.
 - (3) The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.
 - (4) The structure shall be firmly anchored to prevent flotation which may result in damage to other structures.
 - (5) The structure's service facilities such as electrical and heating equipment shall be elevated or floodproofed to at least one (1) foot above the 100-year flood level.
- B. Exemption from the 100-year flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.
12. Recreational Vehicles.
- A. Recreational vehicles are exempt from the requirements of Section 160.09(5) of this chapter regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.
- (1) The recreational vehicle shall be located on the site for less than 180 consecutive days, and,
 - (2) The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.
- B. Recreational vehicles that are located on the site for more than 180 consecutive days and are not ready for highway use must satisfy requirements of Section 160.09(5) of this chapter regarding anchoring and elevation of factory-built homes.
13. Pipeline river and stream crossings shall be buried in the streambed and banks, or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

160.10 ADMINISTRATION. The Mayor shall implement and administer the provisions of this chapter and will herein be referred to as the Administrator. Duties and responsibilities of the Administrator shall include, but not necessarily be limited to, the following:

- 1. Review all flood plain development permit applications to assure that the provisions of this chapter will be satisfied.
- 2. Review all flood plain development permit applications to assure that all necessary permits have been obtained from Federal, State and local governmental agencies including approval when required from the Department of Natural Resources for flood plain construction.
- 3. Record and maintain a record of the elevation (in relation to National Geodetic Vertical Datum) of the lowest floor (including basement) of all new or substantially improved structures in the special flood hazard area.

4. Record and maintain a record of the elevation (in relation to National Geodetic Vertical Datum) to which all new or substantially improved structures have been floodproofed.
5. Notify adjacent communities and/or counties and the Department of Natural Resources prior to any proposed alteration or relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.
6. Keep a record of all permits, appeals and such other transactions and correspondence pertaining to the administration of this chapter.

160.11 FLOOD PLAIN DEVELOPMENT PERMIT REQUIRED. A Flood Plain Development Permit issued by the Administrator shall be secured prior to any flood plain development (any manmade change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, excavation or drilling operations) including the placement of factory-built homes.

160.12 APPLICATION FOR PERMIT. Application for a Flood Plain Development Permit shall be made on forms supplied by the Administrator and shall include the following information:

1. Work To Be Done. Description of the work to be covered by the permit for which application is to be made.
2. Location. Description of the land on which the proposed work is to be done (i.e., lot, block, tract, street address or similar description) that will readily identify and locate the work to be done.
3. Use or Occupancy. Indication of the use or occupancy for which the proposed work is intended.
4. Flood Elevation. Elevation of the 100-year flood.
5. Floor Elevation. Elevation (in relation to National Geodetic Vertical Datum) of the lowest floor (including basement) of buildings or of the level to which a building is to be floodproofed.
6. Cost of Improvement. For buildings being improved or rebuilt, the estimated cost of improvements and market value of the building prior to the improvements.
7. Other. Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this chapter.

160.13 ACTION ON APPLICATION. The Administrator shall, within a reasonable time, make a determination as to whether the proposed flood plain development meets the applicable standards of this chapter and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefor. The Administrator shall not issue permits for variances except as directed by the Council.

160.14 CONSTRUCTION AND USE TO BE AS PROVIDED IN APPLICATION AND PLANS. Flood Plain Development Permits, issued on the basis of approved plans and applications, authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this chapter. The applicant shall be required to submit certification by a professional engineer or land

surveyor, as appropriate, registered in the State, that the finished fill, building floor elevations, floodproofing, or other flood protection measures were accomplished in compliance with the provisions of this chapter, prior to the use or occupancy of any structure.

160.15 VARIANCES. The Council may authorize upon request in specific cases such variances from the terms of this chapter that will not be contrary to the public interest, where owing to special conditions, a literal enforcement of the provisions of this chapter will result in unnecessary hardship. Variances granted must meet the following applicable standards:

1. Cause. Variances shall only be granted upon (i) a showing of good and sufficient cause, (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or ordinances.
2. Prohibited. Variances shall not be issued within any designated floodway if any increase in flood levels during the 100-year flood would result. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly situated lands.
3. Required To Afford Relief. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
4. Notice To Applicant. In cases where the variance involves a lower level of flood protection for buildings than what is ordinarily required by this chapter, the applicant shall be notified in writing over the signature of the Administrator that (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage and (ii) such construction increases risks to life and property.

160.16 FACTORS UPON WHICH THE DECISION TO GRANT VARIANCES SHALL BE BASED. In passing upon applications for variances, the Council shall consider all relevant factors specified in other sections of this chapter and:

1. The danger to life and property due to increased flood heights or velocities caused by encroachments.
2. The danger that materials may be swept on to other lands or downstream to the injury of others.
3. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.
4. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
5. The importance of the services provided by the proposed facility to the community.
6. The requirements of the facility for a flood plain location.
7. The availability of alternative locations not subject to flooding for the proposed use.

8. The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
9. The relationship of the proposed use to the comprehensive plan and flood plain management program for the area.
10. The safety of access to the property in times of flood for ordinary and emergency vehicles.
11. The expected heights, velocity, duration, rate of rise and sediment transport of the flood water expected at the site.
12. The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical and water systems), facilities, streets and bridges.
13. Such other factors which are relevant to the purpose of this chapter.

160.17 CONDITIONS ATTACHED TO VARIANCES. Upon consideration of the factors listed in Section 160.16, the Council may attach such conditions to the granting of variances as it deems necessary to further the purpose of this chapter. Such conditions may include, but not necessarily be limited to:

1. Modification of waste disposal and water supply facilities.
2. Limitation of periods of use and operation.
3. Imposition of operational controls, sureties, and deed restrictions.
4. Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purposes of this chapter.
5. Floodproofing measures.

160.18 NONCONFORMING USES.

1. A structure or the use of a structure or premises which was lawful before the passage or amendment of this chapter, but which is not in conformity with the provisions of this chapter, may be continued subject to the following conditions:
 - A. If such use is discontinued for six (6) consecutive months, any future use of the building premises shall conform to this chapter.
 - B. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.
2. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than fifty (50) percent of the market value of the structure before the damage occurred, except unless it is reconstructed in conformity with the provisions of this chapter. This limitation does not include the cost of any alteration to comply with existing State or local health, sanitary, building or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.

160.19 AMENDMENTS. The regulations and standards set forth in this chapter may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval from the Department of Natural Resources.
